Experiment 6

Student Name: Arneet Kour

Branch: CSE

Semester: 6th

Subject Name: Advanced Programming - 2

UID: 22BCS13918

Section/Group: 637-B

Date of Performance: 27/2/25

Subject Code: 22CSH-351

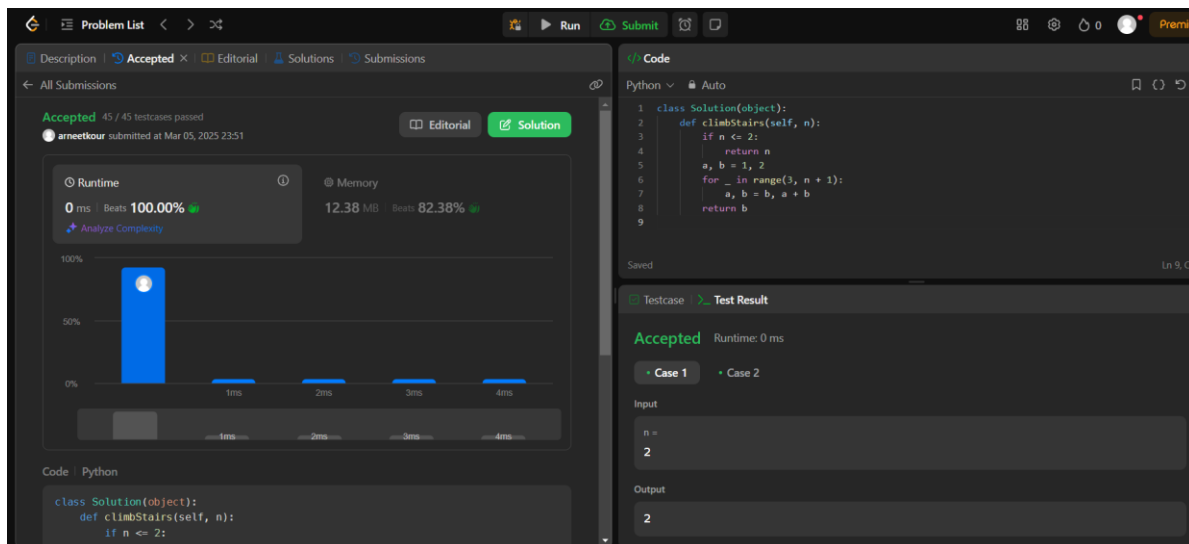

Ques 1:

Aim: Climbing Stairs

Code:

```
class Solution(object):  
    def climbStairs(self, n):  
        if n <= 2:  
            return n  
        a, b = 1, 2  
        for _ in range(3, n + 1):  
            a, b = b, a + b  
        return b
```

Ques 2:

Aim: Maximum Subarray

Code:

```
class Solution(object):  
    def maxSubArray(self, nums):  
        max_sum = cur_sum = nums[0]  
        for num in nums[1:]:  
            cur_sum = max(num, cur_sum + num)  
            max_sum = max(max_sum, cur_sum)  
        return max_sum
```

Ques 3:

Aim: Jump Game

Code:

```
class Solution(object):
    def canJump(self, nums):
        max_reach = 0
        for i, num in enumerate(nums):
            if i > max_reach:
                return False # If we reach an index we cannot jump to
            max_reach = max(max_reach, i + num)
        if max_reach >= len(nums) - 1:
            return True # If we can reach the last index
        return False
```
